EUROPEAN UNIVERSITIES  
BASKETBALL CHAMPIONSHIP

EUSA

What's inside Things to see Let's talk Schedule & Results

**"There is always something to do, but it's cool"**

**How does your work as an attaché look like and who do you take care of?**  
I am the attachée of two teams – from Germany and from Hungary. It is mainly accompanying the teams at the trainings and matches. Sometimes, I eat breakfast or dinner with the team. There is always something to do, but it's cool.

**How does your contact with the team look like – are you more like friends or co-workers?**  
Definitely friends. Some of those friendships may last longer than the championship.

**How did it happen that you became the volunteer at this championship?**  
Recently I graduated from the university, I studied finance and accounting. Right now, I am enjoying my holidays and after that I am going to look for a job. I used to play basketball myself. Till I was 16 I played in a sport club and after that I played while studying at school and a university. Since I was informed that the European Universities Basketball Championship is being organised in Poznań this year I decided to take part in it. I just wanted to do something for me that would be connected with sports. Moreover, 3 years ago I volunteered at the World University Rowing Championship here, and I really liked it.

**Would you recommend working as a volunteer at such events?**  
I would definitely recommend it, if somebody likes meeting new people, is interested in sports and generally like organizing events, especially sport ones. What is more, you can develop and improve your knowledge of foreign languages. I definitely recommend it.

## LET'S TALK

### 1. What do you think about your group?

**SK:** I know some of the girls from years in the past from some European teams. I think there is gonna be some tough teams in this tournament and we are excited to play with them.

**QRM:** Everybody thinks it is not the toughest one but they are still really good teams. In the championship, there are few strong teams so we will see it. We lost today so we need to win tomorrow if we want to face teams from other groups.

**BAN:** We watched links from the other games. They all are prepared. But we are prepared too so I think we can beat both teams from our group.

### 2. What is the biggest strength of your team?

**SK:** I think we have a really good chemistry because we are playing together for a very long time. I think we also have some speed, even from our post players.

**QRM:** For sure the chemistry. We have been playing together or between one another for more than 10 years.

**BAN:** Uff difficult question. We don't play together for so long and all of us come from different teams in Hungary and because of that, we are trying to work on our chemistry. We are fighters and I think the defense is our biggest weapon.

### 3. How do you deal with the pressure of representing your country and the university in this championship?

**SK:** It's more about pride. For me, it's fun thinks to do. We are glad that the University got us an opportunity to come here and compete.

**QRM:** We are not a team that focuses on that kind of stuff. All of us played big games in the past so we know how to deal with that.

**BAN:** It's always beautiful thing to represent our nation and country. We are very thankful for our federation that helps us to come to this championship.

### 4. What does basketball mean for you?

**SK:** It's everything for me.

**QRM:** For me, it is half of my life.

**BAN:** Basketball is my life.

### 5. Favourite basketball club?

**SK:** It's always my team.

**QRM:** Real Madrid.

**BAN:** Of course, mine but I root for San Antonio Spurs.

### 6. Favourite player?

**SK:** I don't have one.

**QRM:** Klay Thompson.

**BAN:** I don't have favourite players because I just like to enjoy basketball games. If I have to choose one it is Stephen Curry.

**Quillermo Ruiz Merino**  
Polytechnic University of Madrid

**Sigi Koizer**  
University of Vienna

**Botond Agoston Nagy**  
University of Physical Education Budapest

## MALTA

Malta Lake is perfect spot to relax in the open air, both actively and lazily on the blanket. During summer there are plenty of activities, such as mini golf, summer toboggan run, all-year ski stop. There is also a bathing beach nearby and Termy Maltańskie – the biggest aquapark in Poland. Fans of wild animals can also visit the Zoological Gardens (the New Zoo) located near the end station of Maltanka Train.

The lake is known for major kayak and rowing events. It was created by damming up the Cybina River and covers an area of 64 hectares. It is situated in the East part of the city. The western part of the lake features the largest fountain in Poznań. It was built to commemorate the 750th anniversary of the foundation of the city.

## LET'S TALK

*It's complicated. We saw the game they played against Israel and we felt like we could even the odds, but today we fail, we fail at the basics. I don't know honestly...We need to think about it but it was the basics. In the end we haven't made so many threes as we used to. They were very physical, very physical. I felt like the refs (referees) were like "waiting the game". But in the end they were better. They scored more than 20 points against us. We feel like it's too much for us. If we play like we used to and not make so many mistakes I think we could even the game, probably win. We like small ball and muscle strength in the centres. But we are very fast and we are very smart.*

**Pedro Castro**  
University of Coimbra

## PACHA PARTY TRANSPORT

**Dedicated buses from Halls of Residence to the Pacha Club:**

• 23.07.2019: 22:00(10pm) & 23:00(11pm)
