At the moment it's truly amazing, because got to the 3rd final in last few tournaments. It's unbelievable, you know, it's unbelievable! I bet we will face Lithuania. I've never seen Turkey playing, they're definitely a good team, but my guts tell me that Lithuania will make it. We already faced them in the group stage and need to analyze it thoroughly before tomorrow's game. Key is to focus on the defense. We have good and talented team and we should put a pressure on them to brake their lines and defense. In our team there are three guys that play in second league. But mainly for most of us it's not a job, it's passion. And I think you can see that when we play on the field.

**Gioacchino Chiappelli (University of Bologna)**

It is the sixth European University Championship for me. I am PE teacher, but got my certificate last year and this allowed me to play here. I feel truly good, because my team plays good basketball so far, there's a good chemistry within and in it. The semi-final was intense from the beginning to the end. For tomorrow very important key is to start strong and give everything we have. Score and defense, simple as that. We really hope it's going to be Vienna because we want to have our revenge.

**Ceine Pfsiter (University of Strasbourg)**
