What's inside

Poznan, what to do?

Poznan Croissant Museum and Experience...

Let's talk

Q & A with EUC participants
 Ott Sellis - Estonian University of Life Sciences
 Mihai Caprarescu - University of Pitesti
 Gustavo Savio - University of Bologna

Schedule & Results

"It was one of the best opening Ceremony..."

It was one of the best opening Ceremony I have attended, not only organised by AZS, but ever in the past. It was very dynamic, well-prepared. The artist brought in a lot of energy, and this is exactly the way it should be done. I hope the competition will manage to keep up this high quality level. The expectation bar is set up extremely high.

I think I have no favourite. Naturally, I wish to see one of the Polish teams to be among the best, but in the end, it is not the most important matter. It is important that they are students who have the passion that they can develop. They have the patience, to attend and prepare to the competition, but also, they are, in principle, diligent students. As a result, I am convinced that apart from being a good player they will achieve a professional success in the future. Since in the end not all of them will do sport for living in the future.

Alojzy Nowak

LET'S TALK

Q & A with EUC participants

Ott Sellis-Estonian University of Life Sciences

Mihai Caprarescu-University of Pitesti

Gustavo Savio - University of Bologna

What do you think about your group?

O.S. I think we are lucky with our group. We avoided Lithuanians, they are really strong as well as Bologna. Their group is a death group forme.

M.C. My team and I checked the other teams, we already knew many of them and as I said before, every team has a chance to go far in the competition.

G.S. Lithuanians, French, and all the other teams are very goods owe will see on the court.

What is the biggest strength of your team? (team game, chemistry, etc)

O.S. We like to shoot threes a lot because we are as small team. It's like „run and gun“.

M.C. We know each other for a long time. We played together at the national team and in the national championship, we played against each other many times, so we have a very good chemistry and I think this is very important in a tournament.

G.S. The biggest strength of my team is that we are a family. We are not team, we are family.

How do you deal with the pressure of representing your country and university in this championship?

O.S. I am really proud. I like representing Estonia. We are a small country and wherever we can go we spread our country culture and that is awesome.

M.C. It's a great honour to represent my country. It's not the first time when we are playing in European competitions, so I think we learned how to handle the pressure.

G.S. I am proud to represent my country and my university. So, of course, there is a pressure, but this is something you should be proud of.

What does basketball mean for you?

O.S. Forme, basketball is something I love doing since I was as small child.

M.C. I've played basketball for a long time. I started because I liked it and the pleasure is still here. I spend most of my time playing basketball so it's also a routine for me. I can't explain in words how much it means to me and I can't live without it.

G.S. Basketball forme is away of life. It is like you try to bring values of basketball in your life.

Favourite basketball club?

O.S. The Miami Heat

M.C. Real Madrid

G.S. Pallacanestro Biella

Favourite player?

O.S. Dwaine Wade

M.C. Luka Doncic

G.S. Nicola Minesi

TRANSPORT

Shuttle buses from Sport Venues to Halls of Residence:

- Departure at mid hours (every 1 hour from 12:30pm till 8:30pm)

Hungry of local flavors?

In the heart of the Old City is located Poznan Croissant Museum and Experience. If you are interested in the history and manufacturing process of Saint Martin Croissants and other symbols of Poznań there is no better place to be.

Poznanians eat croissants every year on the name day of Saint Martin. Currently, these croissants are baked only in those confectioneries that have a special certificate. Every year, about 300 tons of this delicacy are eaten in Poznań.

The atmosphere during the show is friendly and casual, there are no doubts you'll have fun at this hands-on experience. The renaissance interior of the museum with a view of the Town Hall is the icing on the cake.

Where? Klasztorna 41

When? In English every day at 13.45

Price – 19 zł (croissant tasting included)
